

PCB Solid Modeling Service

Please experience 3D space in your PCB on your personal computer.

■ Overview

We build and offer 3D models of your PCB from gerber files.

■ Feature

- Wiring patterns are precisely embodied.
- The PCB solid model wholly contains components of your embedded-parts-PWB.
- The model is available for simulations based on the finite element method.

■ Use

For design reviews with higher quality

For more real renderings

For simulations with higher accuracy
